UNIVERSAL HUMAN VALUES – II · HS201

Important Topics & Memory Sheet

Every topic worth carrying into the examination — with the shortest way to remember it

How to use this sheet. The middle column is what you must be able to say in an answer. The right-hand column is only a hook — a word, a phrase or a picture that brings the middle column back. Read the hooks on the morning of the paper; read the middle column the night before. Where a hook is an acronym, say it aloud once.

Module 1 · Basic Human Aspiration and Its Fulfilment

Important topic	What to remember	Shortest way to remember
Value of an entity	Its participation in the larger order of which it is a part — the chalk in the classroom	**Value = Participation**
Two domains of education	Value domain answers “what to do”; skill domain answers “how to do”; values take priority	**What → How, Values → Skills**
Five guidelines of VE	Universal, Rational, Natural & verifiable, All-encompassing, Leading to harmony	**U-R-N-A-L — say it as “urnal”**
Basic human aspiration	Continuous happiness and prosperity — the same for every human being	**Happy + Prosperous + Forever**
Happiness	To be in a state of harmony — a state naturally acceptable to us	**Happy = Harmony (unhappy = forced disharmony)**
Prosperity	The feeling of having *more than the required* physical facility	**A feeling, not a pile**
Excitement vs happiness	Excitement comes from a sensation or from others’ feelings; it cannot continue. Happiness is harmony within	**Outside vs inside**
Four stages of a sensation	Tasty-necessary → tasty-unnecessary → tasteless-unnecessary → intolerable	**Tasty → Tasteless → Intolerable**
Self-exploration	Verify a proposal on natural acceptance, then validate it by living it	**Verify, then Live it**
Natural acceptance	Unconditional, uncorrupted, innate, definite — does not change with time, place or person	**T-P-I: not Time, Place, Individual**
Three marks of right understanding	Assuring, satisfying, universal (in time, place, individual)	**A-S-U**
Three requirements & priority	Right understanding → relationship → physical facility; none can substitute for another	**Understanding, People, Things**
Animal vs human consciousness	Animal: physical facility first. Human: right understanding first	**Facility first = animal**
Four levels of living	Individual, family, society, nature / existence	**I Felt So Nice**
Education vs sanskar	Education develops understanding; sanskar is the commitment, preparation and practice of living by it	**Education tells, sanskar lives**
All-encompassing resolution	Right understanding + relationship + physical facility + participation in the larger order	**Four legs of a table — remove one, it falls**
Solving problems by the resolution	Ask which of the four components has been neglected	**Diagnose by the four legs**
Holistic development	The transformation from animal consciousness to human consciousness	**Same person, right order**

Module 2 · Harmony in the Human Being

Important topic	What to remember	Shortest way to remember
Human being	Co-existence of the Self (consciousness) and the Body (material)	**“I” and “mine”**
Five differences	Need, fulfilment, activity, response, domain	**N-FAR-D**
Need of Self vs Body	Happiness — continuous, qualitative; physical facility — temporary, quantitative	**Feelings never fill a tank**
Response of the Self	Knowing → assuming → recognising → fulfilling; indefinite unless assuming rests on knowing	**KARF — assuming is the hinge**
Response of the Body	Recognising → fulfilling; always definite	**The Body has no “maybe”**
Seer, Doer, Enjoyer	The Self sees, decides and experiences; the Body is only an instrument	**See it, Do it, Feel it**
Gross misunderstanding	Assuming human = Body, so every need is met by facility → the deprivation loop	**Pouring water into a basket**
Three sources of imagination	Preconditioning, sensation, natural acceptance	**P-S-N**
Self-organised vs enslaved	Guided by natural acceptance vs driven by preconditioning or sensation	**Same driver, different road**
Sanskar	Accumulated acceptances; **S(t+1) = S(t) + Environment(t) + Self-exploration(t)**	**Yesterday + Surroundings + Self-check = Tomorrow**
Self-regulation	Feeling of responsibility for nurturing, protecting and rightly utilising the Body	**N-P-R**
Two indicators of health	The Body acts on the Self’s instruction, and its parts stay in order	**Obedient and Orderly**
Programme for health	Intake, routine, labour, exercise, balancing organs, balancing breathing — then medicine, then treatment	**Live right first, medicine later**
Prosperity via the Body	Facility is needed only for these three purposes, so the requirement is limited	**The Body’s bill is small**

Module 3 · Harmony in the Family and Society

Important topic	What to remember	Shortest way to remember
Nine feelings	Trust, respect, affection, care, guidance, reverence, glory, gratitude, love	**TRAC-GRGGL**
Foundation and complete value	Trust is the foundation; love is the complete value	**Starts with Trust, ends with Love**
Trust	Assurance that the other *intends* my happiness — trust in intention, not competence	**Good intent, weak hands**
Eight statements	Four about intention (1a–4a), four about competence (1b–4b)	**Four wants, four abilities**
Common mistake in trust	Judge myself by my intention, the other by his competence	**“I meant well; he failed”**
Respect	Right evaluation — of intention and competence, at the level of the Self	**Respect = Right evaluation**
Three wrong evaluations	Over evaluation, under evaluation, otherwise evaluation	**O-U-O**
Minimum content of respect	Same purpose, same programme, same potential	**Three P’s the same**
Complete content of respect	Three P’s the same, and complementary in competence	**3P + C**

Important topic	What to remember	Shortest way to remember
Three differentiations	On the basis of body, physical facility, beliefs	**3 B's: Body, Bank, Belief**
Justice	Recognition, fulfilment and evaluation of relationship → mutual happiness	**RFE = MH**
Response vs reaction	Response is definite; reaction is indefinite	**Steady vs swing**
Comprehensive human goal	Happiness in every individual, prosperity in every family, fearlessness in society, co-existence in nature	**H-P-F-C — one per level**
Five dimensions	Education-sanskar, health-self-regulation, production-work, justice-preservation, exchange-storage	**E-H-P-J-E: "Every Home Produces Just Exchange"**
Expansion of order	Family → family cluster → village → village cluster → nation → world family	**Six steps, small to big**

Module 4 · Harmony in Nature and Existence

Important topic	What to remember	Shortest way to remember
Four orders	Physical, bio, animal, human	**P-B-A-H**
Four attributes	Activity, innateness, natural characteristic, inheritance	**A-I-N-I — inside, identity, outside, inherit**
Abundance	Physical ■ bio ■ animal ■ human — requirement of any order is already provided	**Most soil, fewest people**
Inheritance of the orders	Constitution, seed, breed, education-sanskar	**C-S-B-E**
Who can exist alone	The physical order; the human order depends on all three below it	**The top needs the base**
Existence	Two realities — space and units; the units are submerged in space	**Fish in water**
Submergence	Energised, self-organised, and recognising and fulfilling relationship	**E-S-R**
Units vs space	Limited, active, many vs unlimited, all-pervading, no-activity, one	**Units do; space doesn't**
Co-existence	Nothing exists apart from relationship — existence is co-existence	**Existence = Co-existence**
Development	Material activity is cyclic; permanent change is possible only in consciousness	**Only the Self can grow**
Inner evolution	Self-exploration → self-awareness → self-evaluation	**E-A-E**
Three activities of the Self	Understanding → realisation → contemplation	**Know it, Feel it, Live it**
Role of the human being	To realise co-existence and live in co-existence — completing the unfolding	**Nature starts it; we complete it**

Module 5 · Human Conduct and Professional Ethics

Important topic	What to remember	Shortest way to remember
Definite human conduct	The sum total of harmony within, expressing itself and participating in harmony outside	**Inside out**
Three components	Human values → policy → character	**Think it, Plan it, Do it**
Three tests of ethical conduct	Self-satisfying, people-friendly, eco-friendly	**Me, People, Planet**

Important topic	What to remember	Shortest way to remember
Profession	Participation in the larger order towards the comprehensive human goal — not merely livelihood	**Work is participation**
Six features of professional ethics	Clarity of goal, confidence, competence in behaviour, competence with nature, holistic vision, social responsibility	**Clear, Confident, Caring, Nature-friendly, Visionary, Responsible**
Why present remedies fail	Codes, audits, laws and vigilance treat symptoms; the faulty worldview stays intact	**Cut the weed, keep the root**
Dilemmas	Generated by the objective itself — wealth maximisation makes the other's good look like my loss	**Wrong aim, endless conflict**
Humanistic cycle	Education → conduct → constitution → universal order → education	**A loop, entered at education**
Three broad criteria	Appropriate needs and lifestyles, eco-friendly, user-friendly	**Need, Nature, User**
Four production questions	What to produce, how to produce, for whom, how much	**W-H-W-H**
Four steps of transition	Individual transformation, mass awareness, humanising education, models of holistic living	**I-M-E-M: "I Must Educate Masses"**
Gram-swarajya	The model of human order actualised at the village level	**Think global, live village**

The numbers examiners ask for

Half the two-mark questions in this paper are simply a number. If you can recite this table, those marks are already secured.

Count	What it counts	Recite it as
5	Guidelines of value education	Universal, Rational, Natural-verifiable, All-encompassing, Leading to harmony
3	Requirements for fulfilment	Right understanding, relationship, physical facility
4	Levels of living	Individual, family, society, nature/existence
3	Marks of right understanding	Assuring, satisfying, universal
4	Stages of a sensation	Tasty-necessary, tasty-unnecessary, tasteless-unnecessary, intolerable
4	Differences between Self and Body	Need, fulfilment, activity, response (+ domain)
3	Sources of imagination	Preconditioning, sensation, natural acceptance
9	Feelings in relationship	Trust, respect, affection, care, guidance, reverence, glory, gratitude, love
3	Wrong evaluations	Over, under, otherwise
3	Differentiations	Body, physical facility, beliefs
3	Elements of justice	Recognition, fulfilment, evaluation (→ mutual happiness)
4	Elements of the human goal	Happiness, prosperity, fearlessness, co-existence
5	Dimensions of human order	Education-sanskar, health-self-regulation, production-work, justice-preservation, exchange-storage
4	Orders of nature	Physical, bio, animal, human
4	Attributes of a unit	Activity, innateness, natural characteristic, inheritance
3	Implications of submergence	Energised, self-organised, recognising and fulfilling relationship
3	Steps of inner evolution	Self-exploration, self-awareness, self-evaluation
3	Activities of the Self	Understanding, realisation, contemplation
3	Components of ethical conduct	Values, policy, character
6	Salient features of professional ethics	Clarity, confidence, behaviour, nature, vision, responsibility
3	Broad criteria for technologies	Appropriate needs, eco-friendly, user-friendly
4	Questions for production	What, how, for whom, how much
4	Steps of transition	Individual, mass awareness, education, models

The twenty one-liners that answer half the paper

Each of these is a complete answer to a two-mark question. Learn them verbatim; they are the manual's own phrasing, which is what the marking scheme quotes back.

1. Value of an entity is its participation in the larger order of which it is a part.
2. Happiness is to be in a state of harmony; unhappiness is to be forced into a state of disharmony.
3. Prosperity is the feeling of having more than the required physical facility.
4. Right understanding is knowing correctly — oneself, relationship, society and existence.
5. Resolution is the commitment to live according to right understanding — an activity of the Self.
6. Natural acceptance is what we unconditionally accept as right — innate, uncorrupted and definite.
7. Self-exploration is verification on natural acceptance, then experiential validation by living.
8. A human being is the co-existence of the Self (consciousness) and the Body (material).
9. The response of the Body is definite; the response of the Self depends on assuming.

10. The Body is the instrument; the Self is the Seer, the Doer and the Enjoyer.
11. Self-regulation is the feeling of responsibility in the Self for nurturing, protecting and rightly using the Body.
12. Trust is to be assured that the other intends to make me happy and prosperous.
13. Respect is right evaluation — similar in purpose, programme and potential, complementary in competence.
14. Justice is the recognition, fulfilment and evaluation of human-human relationship, leading to mutual happiness.
15. Love is the feeling of being related to all — the complete value, expressed as compassion.
16. Existence is co-existence — units submerged in space, energised, self-organised and fulfilling relationship.
17. Inner evolution is the movement from borrowed assumption to self-verified understanding.
18. Definite human conduct is harmony within, expressing itself and participating in harmony outside.
19. Professional ethics is the right utilisation of professional skills in the larger order.
20. Universal human values are the manifestations of co-existence in the dimensions of human participation.

Five phrases that lift any answer

"Physical facility is necessary but not adequate for a human being." — Module 1

"All the problems of a human being are due to assumptions without knowing." — Module 2

"Relationship is already there; we only have to recognise and fulfil it." — Module 3

"The unfolding of co-existence has to be completed through the human being." — Module 4

"The faulty worldview continues to remain dominant — that is why remedies fail." — Module 5
